ACADEMY OF DENTISTRY YEAR BOOK

1944-1945

TWENTY-SECOND SESSION

VOLUME ELEVEN

DR. HAROLD R. SKILLING
President

FOREWORD

Before this Academy Year Book reaches you, we probably will have entered the sixth year of war. We fervently hope that it may be Victory Year, and that we may have the great joy of welcoming home those of our Fellows who have sacrificed so much for us during these long years.

When the war is over, we know that many problems must be solved. Let us face them squarely, without flinching. The only way to make your influence count is to affiliate yourself with organized dentistry. Membership in the Academy will mean a great deal to dentistry and to you. It is my hope that we may enlist among our Fellows every dentist in the city of Toronto this coming year.

Your Executive Council has made an earnest endeavour to provide a programme that will be helpful to you. The outstanding feature is, of course, the Winter Clinic, to be held on the last Wednesday in November. It is our pleasure once again to extend a welcome to all dentists from outside Toronto who may wish to attend.

A page describing a "Plan for Hospital Care" will be found in this volume. The Executive Council agreed that the benefits from such a plan should be placed before the Fellows for serious consideration. Further details will be forwarded to you shortly.

The Academy Year Book is valuable to the dentists of Toronto. It is the co-operation of the advertisers that make possible its publication. May we suggest that you express your appreciation by patronizing them as liberally as you can.

The privileges of membership are again extended to all dentists serving in the Forces. We will be honoured to have them attend our meetings whenever they can avail themselves of the opportunity.

It is the desire of the entire Council to serve you faithfully and well. May I, on their behalf, bespeak your complete co-operation and support.

HAROLD R. SKILLING,
President.

DENTAL PUBLIC HEALTH COMMITTEE

The following Fellows have been appointed by your Executive to act on this committee:

W. A. Black, 86 Bloor St. West.....	KI. 8803
R. J. Godfrey, Faculty of Dentistry.....	MI. 9863
Gordon S. Paul, 1238 Bloor St. West.....	LL. 4010
Cecil Summerfeldt, 854 Eglinton Ave. West.....	HY. 0535
Walter Godsoe, 550 Kingston Rd., Secretary.....	GR. 9919

During the year Gordon Knapp, W. A. Black, S. J. Hopkins, Charles McLean, H. E. Leslie, Walter Godsoe, Harold Skilling, Earl Bancroft and several others, addressed many groups of the Red Cross, Home and School Clubs, Mother-Craft and the Kiwanis on Dental Health topics.

A series of slides, to illustrate the Lecture outline drawn up last year in collaboration with Roy Ellis and S. A. McGregor, is being completed, and will be available this year.

This year your committee is making plans for two projects:

- I. To hold a Dental Health Day for the examination of pre-school children only. There are many details to the project, and you will be fully informed as to time, place and manner in which this examination will be conducted.
- II. The formation of an effective "Speaking in Public" Group. More detailed information will be available later, but if you are interested, leave your name with the secretary, Walter Godsoe.

May I bespeak the continued support of the Fellows of the Academy for your Dental Public Health Committee.

EDGAR A. WHITE,
Chairman.

ANNUAL DINNER MEETING

Royal York Hotel, Concert Hall

6.30 p.m.

Wednesday, October 18, 1944

CAPTAIN THE REV. NORMAN RAWSON

Guest Speaker

Captain Norman Rawson is an internationally known and a much sought after speaker and lecturer, being in constant demand for the very largest conventions and national and international gatherings in Canada and the United States. He is frequently mentioned in press despatches and very widely quoted in the public press. Mr. Rawson has travelled widely, and has an unusual flair for analyzing and making clear the international scene and great public issues. He is one of the outstanding after-dinner speakers in the Dominion. He is also noted for a very happy combination of up-to-the-minute information, lucid and clear explanation, wholesome and sparkling wit.

Captain the Rev. Norman Rawson was born in Coldwater, Ontario; attended Orillia Collegiate, Albert College, Belleville; and Victoria College, Toronto University. He served overseas in the first Great War as a private soldier, and later served on the General Staff of British Forces in Russia as Captain. He was married in England. His preaching charges have been at Jacksonboro, Ontario; Smooth Rock Falls, Cobalt, Brampton and St. James United Church, Ottawa, where he regularly had the largest congregation in Eastern Canada. Mr. Rawson has travelled extensively in Europe and Asia, and has lectured for Chatauquas and Service Clubs in Canada and the United States. He came to Centenary United Church in June, 1937. Captain Rawson ordinarily speaks each Sunday evening to what is regarded as consistently one of the largest evening congregations in Canada. Regularly, between 1,500 and 1,600 people throng this great historic old Church to listen to his messages.

FIRST GENERAL MEETING

Osler Hall, Academy of Medicine Building, 8.15 p.m.

WALTER T. McFALL, D.D.S. F.I.C.D.
602 Flatiron Building, Asheville, N.C.

Subject: "DENTISTRY FOR CHILDREN"

Born and reared in South Carolina. Served in the U.S. Navy during the last World War. Graduated from the Atlanta-Southern Dental College, Atlanta, Georgia, in 1923.

Formerly Chief of the Dental Staffs of Greenville City and Emma Moss Booth Memorial Hospitals in Greenville, S.C., and of the Macon Hospital, Macon, Georgia. On staff of, and lecturer in, Vanderbilt University Hospital and Medical School, Nashville, Tennessee. Has given clinics and papers in more than thirty states before dental, medical, civic and lay groups. Has given more than three hundred clinics and professional addresses, and conducted post-graduate seminars and refresher courses in several states; given radio talks, and appeared repeatedly on programmes of the American Dental Association, the Chicago Mid-winter Clinic, the Greater New York Dental Meetings, the New England Dental Society, the Dental Forum of Milwaukee, and before many of the specialized groups in dentistry.

Dr. McFall is particularly interested in all phases of dentistry, dental health education, boy and girl work activities, and in helping every dentist to do his most and best as a professional man. Is a member of the Central Methodist Church in Asheville, and teaches a Sunday School Class. Member of the American Legion.

ANNUAL WINTER CLINIC
WEDNESDAY, NOVEMBER 29th, 1944
ROYAL YORK HOTEL

ANNUAL WINTER CLINIC

DR. EDWARD T. BUTLER

Graduate of University of Louisville in 1919, interned in a city hospital until 1920 when he entered at the Mayo Clinic on a fellowship basis. He set up practice in Buffalo in 1922 and is on the staff of several hospitals there, he is also Associate in Surgery at the University of Buffalo.

He is a past president of the Buffalo Dental Association and is a member of the Dental Society of N.Y. State and the American Society of Oral Surgeons.

Subject: ANAESTHETICS

Dr. Butler will review the many types of anaesthetics we have; —where some are indicated, where some are contra-indicated. He will deal with pre-medication and treatment of shock and generally give you a review that will enlarge your whole concept of this important phase of our everyday work.

This will be a Limited Attendance Clinic. Fee \$1.00.

ANNUAL WINTER CLINIC

DR. EDWARD J. MEHRINGER

Subject: AMALGAM RESTORATIONS

Synopsis: 1. Cavity Preparation

2. Trituration

3. Condensation

4. Finishing and Polishing

5. Maintenance.

Dr. Mehringer has been a member of the staff at the University of Buffalo School of Dentistry since graduation in 1935. He is also a staff member at the Sisters of Charity Hospital, and the Crippled Children's Guild, in Buffalo.

This will be a Limited Attendance Clinic. Fee \$1.00.

ANNUAL WINTER CLINIC

Guest Speaker for Luncheon

THE REV. W. HAROLD YOUNG, D.D.

The Rev. W. Harold Young, D.D., is one of the foremost ministers of the United Church of Canada; at present serving at St. Paul's, Avenue Rd., Toronto.

He is outstanding in scholastic attainment, and as a minister. He is well known as an organizer and his broad sympathy for, and activity in, every worthy cause. He has held many of the highest offices in religious, charitable and fraternal bodies. He is a man's man.

As a speaker he is second to none, and is sought after for every type of speaking appointment.

The committee is most fortunate in securing him. No one should miss hearing Dr. Young's address.

SECOND GENERAL MEETING

Osler Hall, Academy of Medicine Building, Wednesday, January 17, 1945

CHARLES H. M. WILLIAMS, D.D.S., B.Sc. (Dent.)
Toronto

**Subject: "RATIONAL SYSTEM OF TREATMENT FOR
PERIDONTAL POCKETS"**

Charles H. M. Williams, D.D.S., B.Sc. (Dent.), is Associate Professor of Periodontology at the Faculty of Dentistry, University of Toronto.

He has given a great number of clinics and lectures on periodontology in Toronto and throughout Ontario. In addition to these in his own Province, he has presented papers in Boston, New York, Cleveland, Pittsburg, Philadelphia and Chicago.

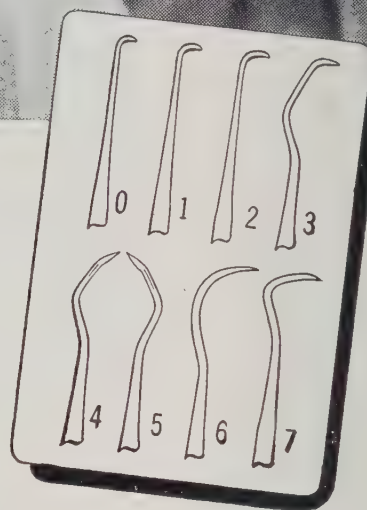

Dr. Williams is a member of the American Academy of Periodontology, and Chairman of the Journal Committee of the Canadian Dental Association.

He graduated from the Faculty of Dentistry, University of Toronto, in 1927, and in the following year obtained his Bachelor of Science degree in Dentistry.

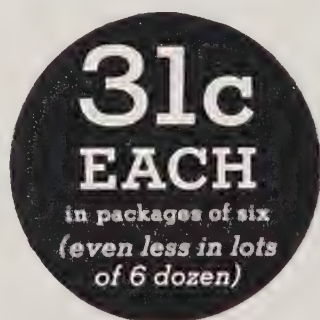

Boy!—
am I glad I switched to
MORSE SCALERS

● When replacement becomes necessary, the Morse user doesn't have to worry about getting a complete new instrument. All he needs is a new scaler point, which slips into his Morse chuck type handle as quickly and easily as replacing a bur in a handpiece. And all types of Morse Scaler points are available immediately from stock. What's more, they cost only

The 8 types of Morse Scalers meet virtually every requirement of scaling technic.

... cheaper than sharpening a conventional instrument.

THE RANSOM & RANDOLPH COMPANY
TOLEDO, OHIO

THIRD GENERAL MEETING

Osler Hall, Academy of Medicine Building, Wednesday, February 14, 1945

EMMETT BECKLEY, D.D.S.

Subject: "FULL DENTURE PROTHESIS"

Emmett Beckley, D.D.S., is a native of Missouri and a graduate of the Kansas City Western Dental College, class of 1934. Served three years apprenticeship in Prosthetics under Dr. Ernest Busch. His practice is limited to Full Dentures. He is a member of the American Full Denture Society and the Pierre Fauchard Academy. Author of various articles on Prosthetics.

He begins on a subject apparently foreign to dentures but opens up on a new field of thought and service. He contends that a great many cases of soreness and irritation of the mucous membrane of the mouth and lips, as well as the breaking down of the epithelium of the other parts of the body are due to the patient's inability to digest proteins.

He outlines a new and refined method of taking a balanced working bite. Emphasizes the fact that a balanced denture gives comfort and efficiency and brings a better understanding between patient and dentist.

He has catalogued this information on Kodachrome slides. The procedure involved in the construction of artificial dentures is shown on 1600 feet of Kodachrome film.

The session will cover material shown before the Chicago Mid-Winter Clinic. The film "Functional Occlusal Balance in the Construction of Artificial Teeth" will be used.

GEORGE A. MORGAN, D.D.S.
Toronto, Ont.

J. FRED KENNEDY, D.D.S.
London, Ont.

J. H. JOHNSON, D.D.S.
Toronto, Ont.

FOURTH GENERAL MEETING

Osler Hall, Academy of Medicine Building

Thursday, March 8, 1945

Subject: "SYMPOSIUM ON POST OPERATIVE TREATMENT"

George A. Morgan, D.D.S. specializes in the practice of Exodontia and Oral Surgery in Toronto.

He is Dental Consultant in the Department of Radiology and Cancer Therapy at the Toronto General Hospital, and Director of Dental Services at St. Michael's Hospital.

Before setting up practice in Toronto, Dr. Morgan had a Mayo Clinic Fellowship from 1931 to 1934, in the Section on Oral Surgery.

He graduated from the University of Toronto, Faculty of Dentistry, in 1930, where he was awarded the University of Toronto Alumni Scholarship in 1929 and the Ontario Dental Association Scholarship in 1930.

J. Fred Kennedy, D.D.S. specializes in the practice of Exodontia and Oral Surgery in London, Ontario.

He was in general practice for the first five years after he graduated from the Royal College of Dental Surgeons and the University of Toronto in 1923.

J. H. Johnson, D.D.S. is Associate Professor of Dental Surgery and Anaesthesia at the Faculty of Dentistry, University of Toronto.

He is the Associate Editor of the Journal of Oral Surgery, and Councillor for the Downtown District in the Academy of Dentistry, Toronto.

He is a past president of The Toronto Society of Dental Oral Surgeons, and of the Association of Downtown Dentists.

Graduated from the Royal College of Dental Surgeons and the University of Toronto in 1925.

Incidentally, he was born in County Cork, Ireland!

-HUTAX-

*Reasons why "YOU" should and can
recommend*

HUTAX PRODUCTS

•

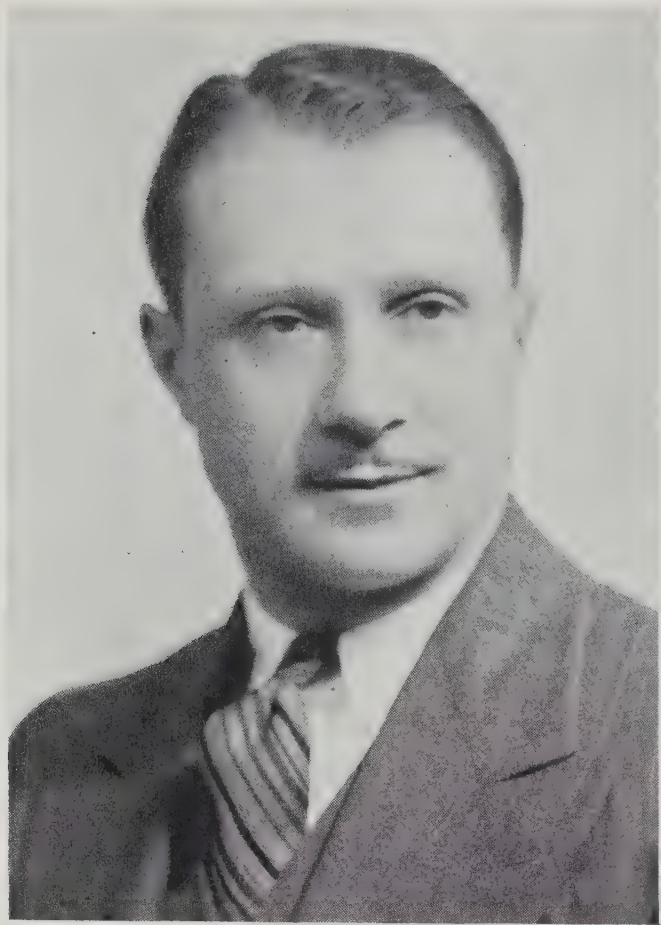

1. Scientifically correct. The Canadian Oral Prophylactic Association has recently had the paste and the powder analyzed by outstanding scientists who found them to be unexcelled.
2. The "NEW HUTAX" toothbrush has been improved in design, using finer Nylon bristles and more bristles to the tuft. This results in greater cleansing function without injury to the tissues when properly used.
3. The terms of the Association charter make it illegal for any member to benefit financially. All profit must be used for Public Dental Health Education and Benevolence.
4. You can Honestly and Safely prescribe HUTAX PRODUCTS.

Prescription pads gladly forwarded on request.

TORONTO EAST DENTAL ASSOCIATION

DR. A. J. VINCE
President

The Toronto East Dental Association has just concluded the most successful year in its history.

This year's executive is looking forward to a continuation of the spirit of good fellowship that was so evident last year.

We feel particularly proud of having oversubscribed our objective for the War Services Fund of the Academy of Dentistry; and heartily commend this Fund to all members of the profession.

The 1944-1945 executive of the Toronto East Dental Association is as follows:

President	A. J. Vince
Imm. Past President.....	R. E. Johnston
Vice-President.....	A. Roy Kerr
Secretary.....	W. C. McLean
Treasurer.....	C. W. Smythe
Members of Executive	J. H. Peters
	W. H. Godsoe
	R. G. Knowles
	Leon Hipwell
Academy of Dentistry Councillor.....	Earl Bancroft

PROGRAMME FOR THE YEAR

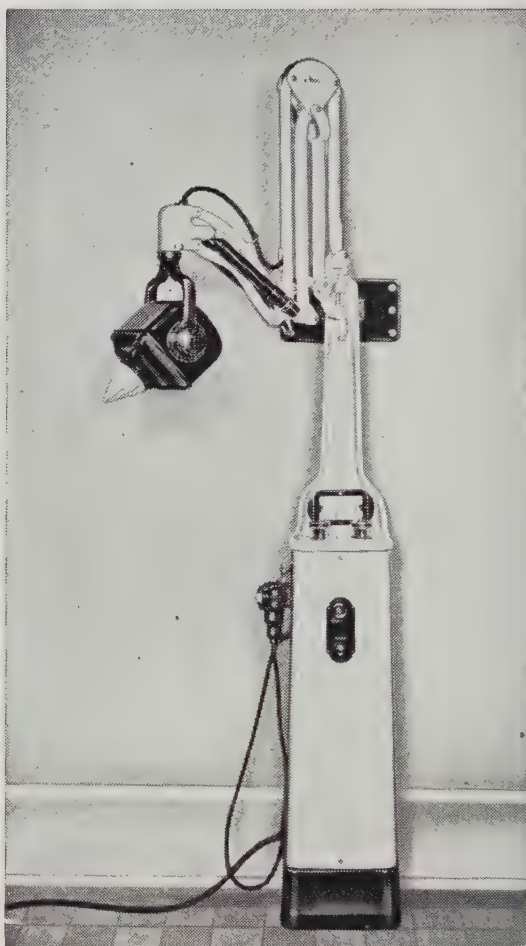

- September 13—Golf Tournament. Cedar Brae.
- October 5—Opening Dinner. Alpine Hotel.
- December 14—Bowling.
- January 4—Clinic.
- February 1—Clinic.
- March 22—Clinic.
- April (date later)—Stag Night.

WEBER *Raydex* - POWER - DURABILITY - PRECISION - PERFORMANCE

The Radex No. 5 Kilovolt Control Model

While most dental X-Ray machines are designed primarily for the express purpose of radiographing the teeth and jaws, Weber Raydex does not limit itself to this one phase of dental radioigraphy, but broadens its application to include extra-oral, sinus and extremity radiographs. As a matter of fact, every part of the human body, both bone and tissue excepting the internal or moving organs can be x-rayed with the greatest degree of accuracy and detail.

One of the features that characterizes the uniqueness of the Weber No. 5 Raydex and increases its field of usefulness is the special kilovolt adjustment which makes it possible to reduce or increase the kilovoltage range in order to meet varying bone or tissue densities. Especially valuable in cases where either bone or tissue detail are required to determine the correct size, shape or position of impactions, supernumerary teeth, cysts, granuloma, bone fractures, bone degeneration and many other out of the ordinary pathologic disturbances.

The Stationary and Mobile Models of the No. 5 Raydex shown here are housed in well balanced, artistically designed metal castings, chrome trimmed and finished in hand rubbed lacquer material—applied to a depth that assures long life and permanent color. Bases are of porcelained metal.

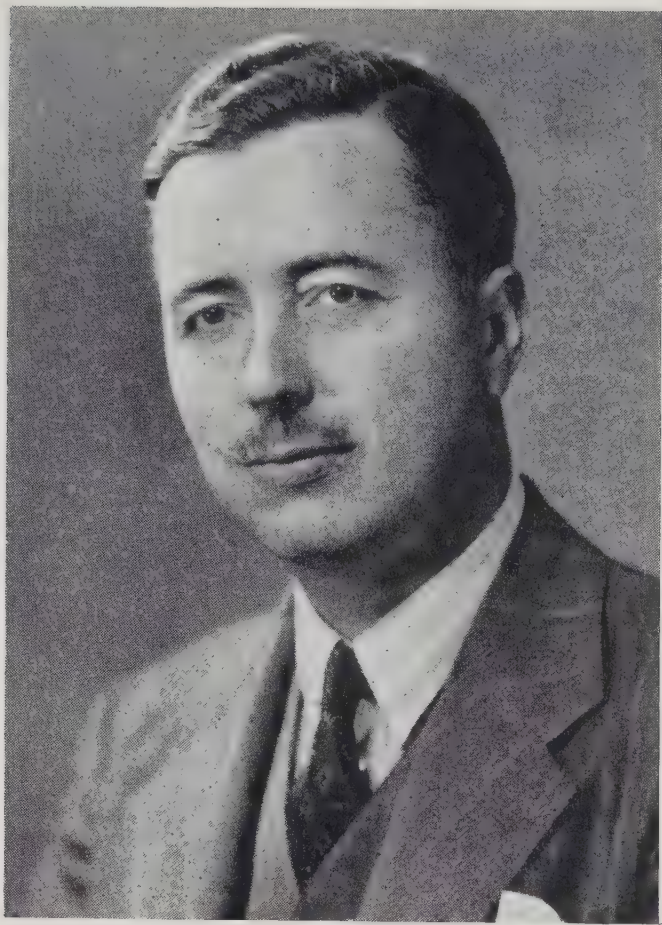

NATIONAL REFINING COMPANY LIMITED

Toronto, Ont.

THE ASSOCIATION OF DOWNTOWN DENTISTS

DR. H. G. WALTON-BALL
President

The approximate dates for the five meetings of the Association of Downtown Dentists are Nov. 1st, and Dec. 6, 1944, Jan. 31st, Feb. 28th, March 28, 1945. All gatherings, as formerly, will be Dinner Meetings and in spite of stringent war restrictions, we shall attempt to continue the usual good fellowship. The programme will include dentistry, current events and recreational subjects. All dentists in the downtown area, whether members of the Academy or not, are cordially invited to join in our activities. Also members of the Canadian Dental Corps stationed near-by, would be whole-heartedly welcomed to any of the above meetings. Previous to each gathering cards will be mailed to all members, informing them of the exact time, programme and place of meeting.

COLDS

The VITAVAX "Immunity Treatment"

Now you can check colds, avoid days of misery and lost time, keep fit and vigorous by taking a VitaVax Capsule daily!

VitaVax is a new, double-defence against colds and lowered vitality. It combines the essential Vitamins A, B₁, C and D with Cold Vaccine — a spectacular success in preventing and allaying colds, 'flu, bronchitis and similar infections.

Keep fit and free from colds this winter. Take a VitaVax Capsule each morning. Easy to swallow, tasteless, safe for children and adults. If catching cold, take extra rest, avoid exposure, start VitaVax treatment at once.

Each VitaVax capsule contains:

Cold Vaccine specially prepared for internal use to be most effective against colds; and rich Vitamins approximating amounts in the foods listed below:

Vitamin A — 5000 Int'l Units ½ pound Butter
 Vitamin B₁ — 1000 Micrograms . 15 slices Whole Wheat Bread
 Vitamin C — 600 Int'l Units ½ glass Orange Juice
 Vitamin D — 1750 Int'l Units . . . 5 teaspoonfuls Cod Liver Oil

WEST TORONTO DENTAL SOCIETY

DR. R. J. MARSHALL
President

The West Toronto Dental Society anticipate carrying out a programme somewhat similar to previous years.

We shall open on November 21st with a dinner meeting and a speaker on a topic of general interest. On January 23rd, February 18th and March 24th we shall have lectures and clinics on different branches of dentistry. The closing meeting will be a golf tournament and dinner on June 9th at the Weston Golf Club. These are tentative dates and will be verified later.

Members of the Armed Forces and visitors from other local societies are assured of a hearty welcome.

THE CANADIAN DENTAL ASSOCIATION

DR. R. A. ROONEY
President

It gives me the greatest pleasure to be able to congratulate the Toronto Academy of Dentistry, on behalf of all individuals and other groups of the profession in Canada, on the opening of a new season of study and good fellowship. All professional progress springs, basically, from the organization of such groups and you may be assured that Canadian Dentistry recognizes the pre-eminent position which the Toronto Academy has achieved. With my personal wishes for your continued successful operation, I am,

Yours fraternally,

R. A. ROONEY,
President.

DR. F. L. WILLIAMSON
President

In 1940, Winston Churchill said, "Give us the tools and we will finish the job". To-day, with his own vocabulary, his comment might well be: What tools! What a job!

How nearly finished the job is, no one can tell. But the light of Victory is fast becoming clearer and nearer and soon we may enter into that **so uncertain** time, "The Post War Era".

As far as our own profession is concerned, much, of course, depends on our legislators, both dental and lay,—and as one of the older men I would hope that they continue to plough a straight furrow, veering little, if at all, either to the right or left.

We should soon welcome the men of our forces who have sacrificed so much, back to their private practises and we who have helped to carry the load should cheerfully hand back all we can to these "remustered" men of dentistry, and also help the new practitioners to a good beginning. In this way let us try to hold what we have, or had,—namely, a profession of which we are all proud.

How can we do this? Largely, through our voluntary dental organizations and there could be no better omen of that very "holding on" and revival, than the evidence of active vitality in all of such organizations and none more progressive or influential than yours, The Academy of Dentistry, Toronto.

On behalf of the Ontario Dental Association, I wish to express to you our deep appreciation of your help and co-operation in the past, and the wish that your efforts this year will surpass your outstanding previous accomplishments.

BLUE CROSS HOSPITAL PLAN

The Blue Cross Plan for Hospital Care is an outstanding development in the field of health service made available by the hospitals through their own Association as a non-profit service in the public interest. The plan provides hospital care on a basis exemplifying the principle of co-operative self-help without compulsion, retaining the values inherent in private medical practice and hospitalization. It was inaugurated with the approval and co-operation of the Ontario Department of Health and is endorsed in principle by the Executive of the Ontario Medical Association. The Plan is designed to provide the maximum hospital care at the lowest possible cost.

It is not possible for individuals to enrol directly in the Plan but arrangements have been made to form a special group for the Fellows of the Academy of Dentistry.

WHAT PLAN FOR HOSPITAL CARE OFFERS YOU

When your own physician says "You must go to the hospital", as a subscriber to Plan for Hospital Care you will be entitled to the following benefits for yourself, your wife and each child enrolled, without limit as to cost in accordance with the terms of the subscriber's contract.

31 days of hospital care in the first contract year; 36 days the second year; 41 days the third year; 46 days the fourth year; 51 days the fifth year.

- | | |
|--|---|
| Semi-private accommodation. | Meals and dietary service. |
| General nursing service. | Basal metabolism tests. |
| Use of operating room as often as necessary. | Dressings and plaster cast materials. |
| Anaesthesia equipment and material. | Emergency hospital service following an accident. |
| Routine clinical pathology service. | Maternity care: One half the hospital charges (up to 12 days) after one year. |
| Electrocardiographic films. | |
| Routine bio-chemistry service. | |

Laboratory services and tests as listed above are provided when necessary to other treatment in hospital, but not solely for diagnostic purposes.

SOME OUTSTANDING FEATURES OF THE PLAN

- No physical examination, no health statement, no medical questionnaire.
- Hospital services are provided for every type of disease, illness or injury.
- No age limit for adults.
- Chronic or pre-existing conditions are covered.

Private accommodation, when available, may be had by payment of the difference in hospital charges directly to the hospital.

SEMI-PRIVATE SUBSCRIPTION RATES

- Single subscriber\$.75 per month
- Subscriber, wife and all children under 16 years of age.... 1.50 per month

It is a requirement of the Plan that all members of the group must pay for the same period and arrangements have been made to collect the subscriptions semi-annually in advance (\$4.50 semi-annual for single subscribers and \$9.00 for family subscribers). Applications, and cheques made payable to the Academy of Dentistry, Toronto, are to be sent to Dr. Charles McLean, 1503 Sterling Tower, Toronto 1. Final Date for Application: November 30th, 1944.

TORONTO ORTHODONTIC STUDY CLUB

President.....	Margaret I. Cowan
President-Elect.....	Murray L. Simon
Secretary-Treasurer.....	Harold E. Leslie

The club's programme for the ensuing year will include monthly scientific evenings and regular business luncheons. Meetings with pediatricians, psychologists, obstetricians, nutritionists, general practitioners in medicine and dentistry, oral surgeons, and periodontists will be arranged in order to study the child as a whole and our mutual problems, and to create still further understanding between medicine and dentistry. Each member of the club will be responsible for one meeting, and will be asked to present a scientific paper.

The members of the club are as follows:

H. G. Bean	G. W. Grieve
H. C. Bliss	H. Halderson
C. A. Corrigan	W. R. Hendry
Margaret I. Cowan	S. J. Lesco
S. Stuart Crouch	H. E. Leslie
Milton R. Culbert	Murray L. Simon
G. Vernon Fisk	Saul Simon

ONTARIO SOCIETY OF DENTAL ORAL SURGEONS

The Ontario Society of Dental Oral Surgeons in the past year has devoted most of its efforts in an advisory capacity to the Board of the R. C. D. S. to assist in arriving at a formula for regulating specialists in the province of Ontario. In this regard a joint meeting was held early in May with the recognized members of the Periodontists and Orthodontists, at which the subject was fully discussed. As a result of these deliberations the Board has been able to understand both the professional and the layman's point of view concerning specialists.

Officers of the Society for the 1944-45 season are:

President.....	C. T. Moyle, 603 Medical Arts Bldg., Hamilton
Vice-Pres.....	J. M. Cation, 371 Keele St., Toronto
Sec.-Treas.....	W. W. Breslin, 206 Bloor St. W., Toronto

The roll of members of the Society is as follows:

W. W. Breslin, Toronto	J. F. Kennedy, London
J. M. Cation, Toronto	C. T. Moyle, Hamilton
W. L. Chalmers, Toronto	G. A. Morgan, Toronto
J. P. Coupland, Ottawa	E. W. Paul, Toronto
R. Diprose, Toronto	H. G. Robb, Toronto
G. W. Everett, Hamilton	A. R. Scott, Toronto
J. H. Johnson, Toronto	

TO-MORROW'S practice *is taking shape TO-DAY*

"As ye sow, so also shall ye reap." The modern application of this well-known saying to dentistry might well read . . . *what we do to-day, will determine our practice to-morrow.*

When a dentist entrusts to us the construction of a full or partial denture, he stakes an important part of his reputation on our specialized ability to produce a completely satisfactory result. His professional skill and the degree of perfection of the finished case, together determine how pleased the patient will be. For this reason it has always been our policy to *guarantee* satisfaction in every piece of work.

In turn the dentist who satisfies his patients from day to day is ensuring a healthy practice to-morrow.

 November—Miss Green, Literary Guild,
 “How to Choose Your Books”.
 December—Christmas Party.
 January—Mr. Conquergood,
 “Character Analysis by Colour”.
 February—Annual Bridge.
 March—Mr. Mark Terail,
 “Psychology”.
 April—To be selected.
 May—To be selected.
 May—Dental Nurses' Alumnae Convention.
 June—Graduation Banquet.
 June—Annual Meeting.

Customers Wanted!

Certainly we want more customers, even in these days when prospective customers are so apt to get the impression that their patronage is not needed.

Just as we did a half century ago, when our business was originally founded, we still want new business—new customers to serve as well as old. Now as then, no account is too small or too large for careful and prompt attention.

If you are one of the few who have not yet enjoyed Ash-Temple service, why not try it out for a few months and judge by results. Our staffs take a great deal of pleasure in trying to serve you better. Theirs is a sincere interest in filling your requirements to the full.

TORONTO AFFILIATED ASSOCIATION OF ONTARIO DENTAL NURSES' AND ASSISTANTS' ASSOCIATION

The President and Executive of the Toronto Affiliated Association have planned a varied programme for the ensuing year, one that we hope will prove educational and interesting to all. We believe that each Dental Nurse and Dental Assistant will be able to improve her efficiency tremendously, by availing herself of this opportunity for friendly association with other members of her profession.

We meet at the Royal York Hotel on the first Monday of each month, in Private Dining Room No. 7 at 8.00 p.m.

We are glad to have this opportunity to thank the Academy of Dentistry for the helpful interest they have shown in our organization, and to wish them every success in the future.

To every Dental Nurse and Dental Assistant, we would say "Welcome".

CHRISTINE JAMES,
President.

PROGRAMME FOR THE YEAR 1944-45

- Sept. 11th—Opening Dinner. Speaker selected.
- Oct. 2nd—Dr. R. P. Lowery, "The Dental Assistant in Dental Public Health."
- Nov. 6th—Mr. Don Henshaw, "Basic Principles of Public Speaking."
- Nov. 29th—Annual Winter Clinic, in conjunction with the Academy of Dentistry.
- Jan. 8th—Mr. Wm. McTavish, "Care of Dental Equipment."
- Feb. 5th—Doctors' Night. Speaker selected.
- Mar. 5th—Dr. Florence McConney, "Newly-discovered Drugs."
- April 2nd—Election of Officers for 1945-46 and Talent Night.
- May 7th—Mother and Daughter Night. Annual Meeting and Installation Service.

TORONTO

A CANADIAN PACIFIC HOTEL

REPORT OF SECRETARY FOR 1943-44

The activities of the Academy of Dentistry, Toronto, having been concluded for the year 1943-44, the executive look back over the year's work with a certain degree of satisfaction. One of the most gratifying features of the year was the large membership, this, in view of the fact that such a great percentage of Academy members have joined the Canadian Dental Corps. We had a membership just a few short of the all time high. This might indicate that the dentists of the city of Toronto are realizing more and more, the important place that organized dentistry holds in these days when we are hearing so much about post war planning.

In this report we will endeavour to acquaint the fellows with some of the highlights of the business conducted around the council table during the year.

This year there have been several innovations, some of which were entirely successful, others may or may not be continued by your new council.

For many years the Toronto Academy has been relying chiefly on the Chicago mid-winter meeting to obtain clinicians for their stated meetings. We are still looking to Chicago, but we have decided that many good clinicians have been overlooked at other conventions and the council agreed to send delegates to the New York State meeting, hoping to find material for our winter clinic and other stated meetings.

X-Ray Course

The council arranged a special course in x-ray, a stated fee being set and Dr. Clarence Simpson was chosen as the clinician. This was a very well attended and beneficial course for the Fellows.

9

Winter Clinic

Each year finds the annual winter clinic growing in popularity as well as providing great potentialities from an educational standpoint. This year the council agreed to set a fee of \$5.00 for out-of-town dentists, this fee to include luncheon and dinner tickets but not admittance to limited attendance clinics. There were 85 out-of-town dentists who attended the winter clinic.

Review Groups

The council approved having a review meeting one week following each stated meeting. At each of these review groups a member was appointed to lead the discussion. These groups, although not too well attended, proved to be of great value and if they are continued the Fellows will find them to be most beneficial.

Constitution

The constitution was reviewed and amended. A revised copy is enclosed with this Year Book.

The Dental Public Health Committee

Under the chairmanship of Dr. E. A. White, this committee worked hard and accomplished much.

A programme of dental health was drafted. Speakers gave dental talks to home and school clubs, Red Cross meetings, etc. A special course in public speaking open to all Fellows of the Academy was conducted.

The Academy Prize

The council approved the granting of a \$100.00 Academy Prize to the University of Toronto, Faculty of Dentistry, to further student interest in dentistry for children.

**ONE DROP of EPINEPHRINE to
ONE GALLON of MONÔCAINE!**

When thinking of epinephrine reactions, please consider the following facts:

Monôcaine 1% with epinephrine 1:75,000 is equivalent to a concentration of one drop of epinephrine to a gallon of Monôcaine solution.

Monôcaine 1½% with epinephrine 1:100,000 is equivalent to a concentration of ¾ drop of epinephrine to a gallon of Monôcaine solution.

This is one of the reasons why Monôcaine solutions are generally free from the unpleasant overstimulation or other side effects due to high epinephrine concentrations. And the anesthesia produced is deep, smooth and sufficiently prolonged for even complicated operations.

The 1½% Monôcaine solution with 1:100,000 epinephrine is especially indicated in pulp extirpation, cavity preparation, grinding, etc., when unusually profound and prolonged anesthesia is required.

War Services Committee

Dr. T. Howard Graham and his committee continued their fine work, keeping in contact with the Fellows of the Academy serving overseas. A steady flow of boxes has been sent to the men, and the letters which this committee received in return, speak for themselves.

Plan for Hospital Care

Authorization was granted to the "Plan For Hospital Care" to present their proposal to the Fellows of the Academy.

In conclusion the president, Dr. Charles McLean, wishes to extend his gratitude to the council for their regular attendance at executive meetings and also to thank the Fellows of the Academy for their support at the regular stated meetings.

J. GORDON CHALMERS,
Secretary.

THESE ARE GRIM BUT GLORIOUS DAYS

Toronto dentists in the Dental Corps are now with our troops in Africa, Italy, France, and other theatres of war. They are in many cases living in war-torn areas, and the hardship and suffering that surrounds them is depressing. Now, more than ever, they need the stimulation of our friendship and the pleasure of our useful, cheering gifts.

Their letters tell us over and over again that they enjoy every item of the six boxes per year that they receive from you through the War Services Committee of the Academy. Your financial support of the efforts of this committee has made this good work possible.

Let's help to keep them happy during these last suspenseful months of the war. Write your cheque on the office book, because it is deductible from income tax, and mark it "War Services Committee, Academy of Dentistry, Toronto". Mail it to the treasurer, Dr. P. G. Anderson, 601 Medical Arts Building, Toronto, and you can be assured that it will be carefully expended on behalf of your colleagues overseas.

HOWARD GRAHAM,
Chairman, War Services Committee.

Auditors' Certificate

We have prepared the attached Balance Sheet of the Academy of Dentistry as at 14th April, 1944, together with a Revenue and Expenditure Account. Subject to the following report, we hereby certify that in our opinion the attached balance sheet is properly drawn up so as to exhibit a true and correct view of the state of the Academy's affairs at that date, according to the explanations and information given us, and is as shown by the books.

Your Treasurer, Dr. H. C. Bliss, has certified that all known liabilities to 14th April, 1944 have been paid, and that there were at that date no guarantees or contingent liabilities outstanding.

**"CHIN UP, BEULAH! YOU'LL
PASS THAT 'PHYSICAL'
WITH FLYING COLORS!"**

© The Borden Co. Ltd.

"HMMMMPH!" GRUNTED ELMER. "If you ask me, the poor kid will pass *out* before she *gets* to the physical!"

"Well, dear, we can't take any chances," warned Elsie. "You know those Borden inspectors."

"Yes, I know 'em, worse luck," snorted Elmer. "But I never did see why they have to be so infernally fussy."

"That's their duty," explained Elsie. "The milk and cream that go into Borden

products such as Evaporated Milk, Cheese, Mel-O-rol Ice Cream and Klim Powdered Whole Milk, have to be as pure as good cows, expert care, and careful laboratory controls can make them."

"But mommy," panted Beulah, "do I have to be this good *all* the time?"

"I'm afraid so, darling," chuckled Elsie. "After all, you're part of the Borden family—and if you're Borden's, you've *got* to be good!"

-if it's Borden's, it's got to be good!

**IN LEARNING TO
SPEAK
EFFECTIVELY**

There is nothing mysterious about the art of public speaking. Reilly training makes it simple and easy—in your spare time. You can become a top-notch speaker, in popular demand, at your lodge, club and other meetings.

DENTISTS

Modern life has become more co-operative and associational and one of the finest assets any professional man can have is the ability to speak in public. Many well-known dentists have already benefited from the Reilly Course. You too can profit by speech training. Telephone KI. 6424 for information regarding evening classes, under the friendly guidance of Leonard M. Reilly. Membership strictly limited to permit personalized coaching.

REILLY INSTITUTE

"Canada's Only Specialized School of Public Speaking"

1844-1944

One hundred years of service to the Dental profession has taught us much.

Our founder started this enterprise with a purpose to supply dentists' requirements with the best possible supplies, appliances and equipment which human skill and tested raw materials could produce.

His successors have stuck to this policy, experience has improved the output of our laboratories and factories.

S. S. W. products are still the best, and the first choice of informed and discriminating dentists everywhere.

DU PONT DENTAL FILM

Pull-a-tab package

★ **EASY TO OPEN**

★ **EASY TO USE**

One of the outstanding features of DuPont Dental Film is the Pull-A-Tab packet in which the films are contained. These exclusive DuPont packets are designed for easy use and easy dark-room opening.

Especially simple to place in the mouth, DuPont Pull-A-Tab packets hold their shape and give maximum comfort because of their rounded corners. The green tab clearly identifies the tongue side, and also indicates where to open the packet in the dark room. Each packet has a saliva-proof outer envelope and a special non-scratch paper lining in contact with the film emulsion for added film protection.

DuPont Dental X-Ray Safety Film, enclosed one or two per Pull-A-Tab packet, in either two or twelve dozen boxes, is obtainable through leading distributors.

Announcing **ACKERMAN** **GELASTIC**

*An Outstanding Elastic Impression Gel Created by the
Makers of ACKERMAN IMPRESSION CEMENT.*

Ackerman Gelastic when mixed with water sets to form a highly elastic gel. Gelastic is so perfectly formulated that it embodies all of the properties so essential for accurate reproduction of severe undercuts.

Observe These Outstanding Properties:

SMOOTHNESS - FLOWABILITY - FIRMNESS - TOUGHNESS - ACCURACY

Impressions that are surprisingly **FREE FROM BUBBLES** and which produce **HARD-CHALK FREE CASTS**. The unfailing accuracy is retained by pouring the cast promptly.

WE INVITE YOU

to try GELASTIC on our money back guarantee. If you are not completely satisfied, after using three or four units from a special package, return the unused balance for full credit.

You can depend upon GELASTIC being another high quality ACKERMAN product. Prove this to yourself by calling your dental dealer and ordering

1 Package of 15 Units	\$ 5.50
3 Packages of 15 Units	\$15.75

WINDSOR

WAHLROTH ARMSTRONG & PAINLESS EXTRACTION

Where the dental surgeon uses the needle to allay his patient's pain, we employ the thawing influence of a friendly helpful approach to our client's problem.

There was some excuse for matching wits with clothing salesmen when merchandise was plentiful, but today's conditions make it doubly important that you get what you pay for, to say nothing of knowing what you have a right to expect for what you pay.

Remember, too, when you come to Wahlroth Armstrong you avail yourself of a technique of fitting and styling that's as modern as it is pleasing.

The fees are not extravagant.

"The Leading Ambulance Service"

With a twinkle in your eye and your tongue in your cheek you can hold your hands 18 inches apart—24 inches, maybe even 30, when you tell them about "the big one that got away." Your patients will smile knowingly and enjoy the story.

But when you are telling them about the serious business of building their dentures they want facts, not friendly kidding. You can tell

them that Vernonite—the material you use—is 100% pure methacrylic resin, and consequently assures stronger, harder, denser dentures. You can tell them and show them if you wish that Vernonite **CONTAINS NO PLASTICIZER**. This unequivocal statement of purity is printed on every package.

It means that Vernonite dentures will remain stable chemically and physically over long periods, give lasting satisfaction. Thousands of cases placed four, five, six and seven years ago are still pleasing their wearers. For dependability say, "VERNONITE."

Can You answer this question about **VITAMINS IN DENTISTRY?**

A valuable booklet

ORAL VITAMIN DEFICIENCY MANIFESTATIONS

BECAUSE:-

It is authoritative . . .

Leaders in the fields of Nutrition and Dentistry were consulted in its preparation. There are over 50 references to published papers together with illustrations in color.

It is handy . . .

In addition to discussing the usefulness of various vitamins it contains a chart showing the manifestations of oral vitamin deficiencies and indications for vitamin therapy.

It is FREE . . .

All you have to do to secure a copy of this valuable booklet is to send in the coupon with your professional card or letterhead.

WHAT has my dentist got that other dentists do not have? The answer to this question is "a knowledge of the more recent facts about vitamins in relation to oral health."

There are many ways of obtaining the information. Faithful reading of some 40 or 50 scientific journals, frequent attendance at conventions and lectures upon nutrition will keep one up-to-date. Reading the new booklet, "Oral Vitamin Deficiency Manifestations," will supply this information quickly, easily and at no more cost than an envelope and a postage stamp. We even supply the paper, if you use the coupon below.

6 NATURALS *for the busy dentist*

Synthetic Porcelain's simplified system of direct-color-matching is of utmost importance to you. Here is how it works:

The 6 natural powders of Synthetic Porcelain duplicate, without blending, the six dominant shades found in natural teeth. This means, that for nearly every restoration, one of the 6 NATURALS will *match tooth color*.

For direct matching without blending, order the 6 NATURALS: 20 — 21 — 22 — 23 — 24 and 25.
